## Section 1: Four-Figure Grid References

Grid references help us find exact locations on a map.

Remember: Along the corridor, then up the stairs!

(Read the horizontal number first, then the vertical number)

Practice: Write the four-figure grid reference for each feature:

	0	1	2	3	4	5
5	.	.	.	.	.	.
4	.	.	C	.	.	.
3	.	.	.	B	.	.
2	.	A	.	.	.	.
1	.	.	.	.	.	.
0	.	.	.	.	.	.

A = Grid reference: (\_\_, \_\_)

B = Grid reference: (\_\_, \_\_)

C = Grid reference: (\_\_, \_\_)
